## Additional information and/or explanations

### Note

Where a fund will not prepare accounts using IAS, it is required to specify the entries in its accounts that will equate to 'total comprehensive income for the period' as that expression is used in IAS. You can set out these details in the space below. Please explain how it is considered that the entries identified in the accounts will equate to 'total comprehensive income for the period' and, if relevant, also explain how any major items in the accounts will be treated differently to IAS.

ISIN reference numbers:

A Share Class - JPY (FR0010368902)

Accounting policy;

Given the tax transparent legal form of the fund, it is not required to make adjustments to comply with Regulation 66 (2) or provide a computation of 'total comprehensive income'.
