THE COMPANY

Independent and employee-owned

- Created in 2005
- Part of CalPERS' EMD program (2011 2021)
- Approx. USD\$ 6 billion under management
- 46 financial professionals, 16 nationalities
- Regulated in France and SEC-registered

The Maximum Diversification[®] approach, supported by original research and a mathematical definition of diversification, provides investors with diversified core exposure, both in equity and fixed income markets.

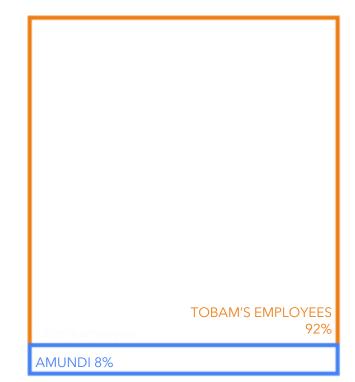

THE FOUNDER

Yves Choueifaty, President & CIO (30 years investment experience), previously:

- CEO of Credit Lyonnais Asset Management (AuM €70bn)
- Graduated in 1992 from ENSAE in Statistics, Actuarial Studies Finance and Artificial Intelligence

SHAREHOLDERS STRUCTURE

Source: TOBAM. Figures as of June 30, 2023.

RESEARCH DRIVEN ASSET MANAGEMENT

48% of the team involved in portfolio management & research (21 people)

- Identify issues, create solutions, and guarantee the rationality of solutions
- Product research & development
- Implementation innovation

//

The team is encouraged to think out of the box in its approach to 'conventional wisdom' to the greatest extent possible. As such, the team's diversity is a critical part of how well it functions. We have a large range of expertise, from mathematicians to engineers, economists and traders, all of which feeds in to the team's ability to look at problems or assumptions from a very broad spectrum of viewpoints.

TOBAM'S SUSTAINABLE APPROACH (2) RESPONSIBLE COMPANY

TOBAM'S COMMITMENT TO HUMAN RIGHTS ADRESSING THE AUTOCRACY RISK

TOBAM's journey into Human Rights

TOBAM'S COMMITMENT TO ESG AND CIVIL RIGHTS & DEMOCRACY ADRESSING THE AUTOCRACY RISK DRIVER ... BECAUSE IT WORKS

Our convictions:

Not "Good" "vs "evil" But "what works" vs "what doesn't work"

- ESG is about creating value on the long run
- ESG is not about doing philanthropy with investors' money
- ESG is about integrating what contributes to value creation and removing what contributes to value destruction
- ESG is not about discriminating between evil and good, it is about promoting what works, what lasts and will survive on the long run and what will create value

Democracy, Respect of Human Rights, Freedom of Speech, Promotion of Diversity and Pluralism are key to innovation, creativity and economic growth

Introduction to TOBAM and Anti-Benchmark **2** Investment Philosophy - The case for Civil and Democratic Rights Measuring Civil and Democratic Rights and portfolio construction • Empirical results • Seeding Proposal & Products Conclusion Appendix

INVESTMENT PHILOSOPHY

- In the long-run investors in countries with oppressive regimes and arbitrary rules are exposed to unrewarded risks.
- Notably due to arbitrary state behaviour, uncompensated expropriations, social unrest, corruption, war.... In the long run they will underperform others.

Numerous research have demonstrated the cost of dictatorship and lack of civil liberties

2 The Economic Effects of Dictatorships JOSE MARIA MARAVALL

OURNAL AIMCLE

Dictatorial Institutions and their Impact on Economic Growth

JENNIFER GANDHI

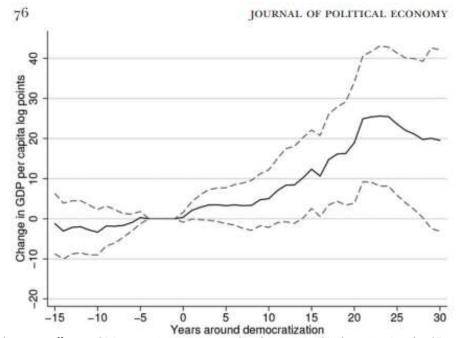

ILLUSTRATION: DEMOCRACY DOES CAUSE GROWTH (ACEMOGLU & AL. 2019)

Acemoglu & al (2019) identify 122 democratizations and 71 reversals from democracy based on data from 1960 until 2010 and show that:

- There is a positive causal effect of democracy on economic growth.
- A country that transitions from nondemocracy to democracy achieves about 20 percent \geq higher GDP growth per capita in the next 25 years than a country that remains a nondemocracy.
- It drives greater investments in capital, schooling, and health. \succ

confidence interval in dashed lines

 \succ The effect of democracy does not depend on the initial level of economic development/level of income.

LAUNCHING FIRST FUND FOCUSED ON CIVIL RIGHTS & DEMOCRACY ADRESSING THE AUTOCRACY RISK

- Identifying the "autocracy risk driver"
- Building a portfolio under exposed to the autocracy risk

- 1. There is an autocracy risk driver
- 2. This risk driver is negatively rewarded
- 3. Most of the exposure to the autocracy risk driver is indirect
- 4. The autocracy risk driver is independent from other risk drivers

GERMANY 1930-1950 REVERSE J-CURVE

- Germany's stock market knew a sharp rise from 1939 to 1943.
- This rise is not present in th<u>e</u> US market.
- From 1944, prices were frozen, and it was impossible to get out from the German's stocks market.
- The German's stocks market opened back in mid-1948 with a fall of ~80% (+inflation).

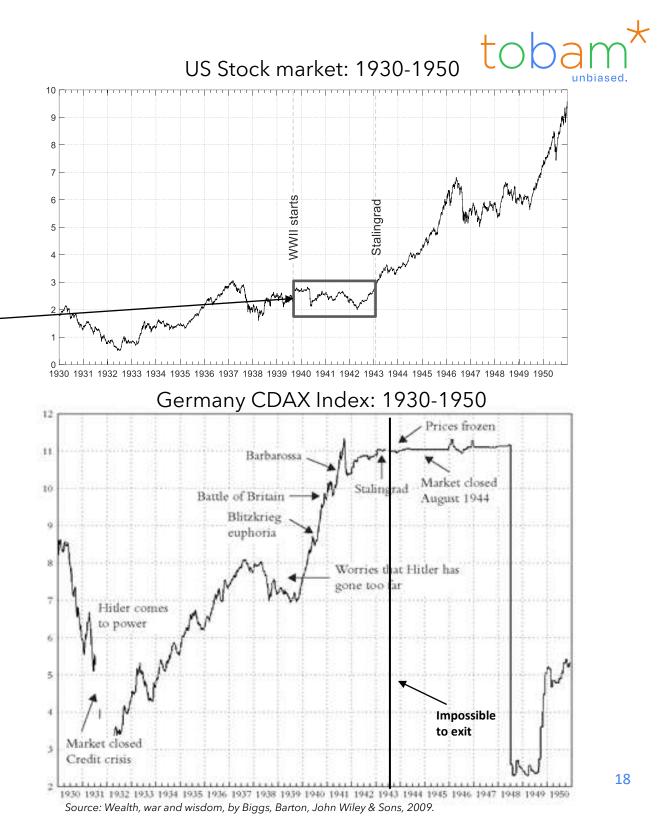

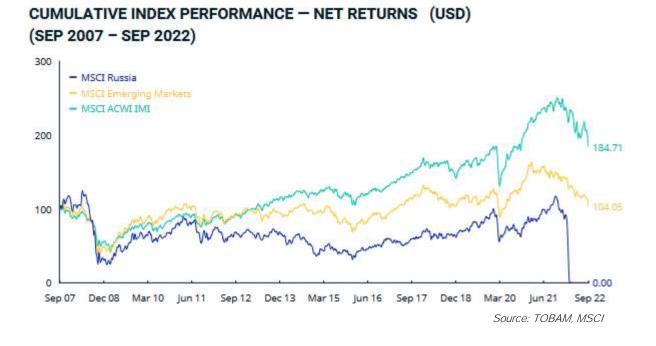

ILLUSTRATION ON FINANCIAL MARKETS: THE CASE OF RUSSIA

- The potential instability of non-democratic countries makes them more susceptible to black swan events.
- One of the most recent example being Russia where direct investments in stocks/bonds of companies in Russia or in companies located elsewhere but with significant economic ties to Russia have been a very painful experience for investors.
- Russia is a country classified as authoritarian since 2011.

DEMOCRACIES AND WARS IN THE 20TH CENTURY ACCORDING TO... CHATGPT

- vv number of wars in the 20th century
- It is difficult to give an exact number of wars that occurred in the 20th century, as there is some debate over what constitutes a "war." However, some estimates suggest that there were around 180 armed conflicts that took place during the 20th century. This includes both major international wars and smaller, less well-known conflicts.

The number of wars also depend on how they are defined or categorized. Some sources might include civil war and other internal conflicts, while others might only consider conflicts between nation-states to be "wars."

However, it is important to highlight again that the number may vary depending on how conflicts are defined and categorized, giving a exact number is hard.

- yv how many wars opposed 2 independant democratic countries during the 20th century?
- Some the provide the second second

One notable example is the War of the Pacific (1879-1883) fought between Chile, Bolivia and Peru. Chile was considered a democratic country during this time and all the three countries were independent

Another notable example was the the Football War (1969) between Honduras and El Salvador, which was a 100 hour-long conflict, the cause of the war were not just the Football but also caused by disputes over land, economic issues and immigration. Both countries were democratic but not fully consolidated democracies.

Those are the main examples that comes to mind when it comes to fully independent democratic countries fighting each other, however this is a very rare ocurrence in history.

We should not trust the dictators' GDP growth estimates (L.R. Martinez, 2022)

- GDP growth reported by autocracies are **inflated by up to 35%** per annum on average.
- In the long run, the reported GDP growth numbers nearly doubled the autocracies' actual economic growth.

Source: The Economist, 1-7 October 2022, p.77; "How much should we trust the dictators' GDP growth estimates?", L.R. Martinez, 2022; Freedom House; World Bank. *In 2021 USD at market exchange rates, assuming reported 1992 GDP figures are accurate. +Countries with over 5 million people, freedom status in 2021. INVESTMENT PROCESS: LBRTY PORTFOLIO CONSTRUCTION

Measuring Countries Civil Liberty and The State of Democracy

There is plenty of data sources, reliable, independent, neutral. Good example of that is VDEM (see illustration next slide).

Datasets include typical pillars:

EXAMPLE OF DATASET: THE V-DEM PROJECT

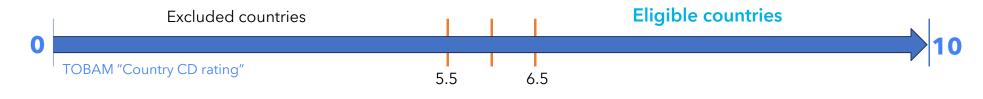

- Founded in 2011, Varieties of Democracy (V-Dem) is a unique approach to conceptualizing and measuring democracy. It
 provides a multidimensional and disaggregated dataset dating back to before 1789 that reflects the complexity of the
 concept of democracy as a system of rule that goes beyond the simple presence of elections.
- The V-Dem project distinguishes between five high-level principles of democracy: electoral, liberal, participatory, deliberative, and egalitarian, and collects data to measure these principles.
- The dataset is governed by Principal Investigators (the highest decision making body), a Steering Committee (body for the overall guidance and decision making connected to the various V-Dem programs and projects) and a large number of Project Managers (they identify reliable and relevant data sources, develop surveys and assure cross-country equivalence for the indicators) that are all Professors from institutions with an excellent academic reputation mainly in the Nordics, USA, and some also from other European Countries. Moreover, the V-Dem institute relies on a wide set of Regional Managers who are Professors at Universities in the respective geographic regions for which data is collected (e.g., Africa, Asia etc.). Overall, the headcounts are 5 Principal Investigators, 18 Personnel at V-Dem Institute, 22 Project Managers, 33 Regional Managers, 134 Country Coordinators and 3700 Country Experts.
- The Host Institution is the University of Gothenburg. The University of Notre Dame played an instrumental part in building and establishing V-Dem
- Funders of the data collection and research infrastructure are:
- We deem the V-Dem institute as a high-quality academic source.
- More information can be found here:
 <u>https://www.v-dem.net/about/v-dem-project/</u>

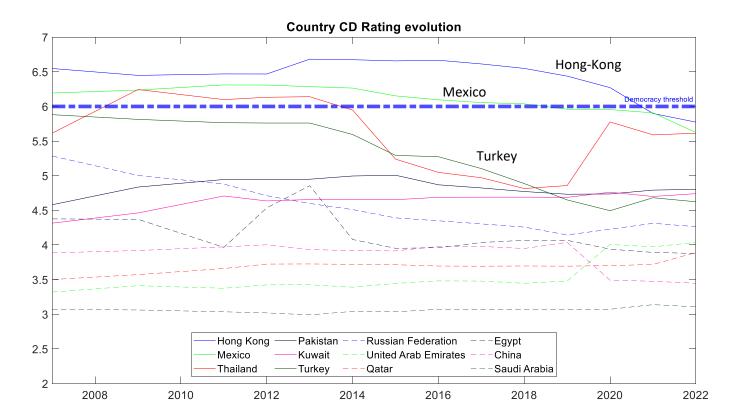

INVESTMENT PROCESS: LBRTY PORTFOLIO CONSTRUCTION

2. Define Eligible countries:

The CD Governance Committee comprising external experts decides, based on granular information, whether countries are improving or not.

12 countries, classified as nondemocratic, are part of the index as of Dec-22.

Country CD ratings are relatively stable over time.

INVESTMENT PROCESS: LBRTY PORTFOLIO CONSTRUCTION

03. Additional exclusion lists (tobacco,...). The stocks of this Benchmark constitute the Investment Universe

Compute Whitelisted Benchmark: Mkt-Cap weighted portfolio of Investment Universe

04. Wearing the "correlation glasses": Estimate the Authoritarian Exposure of each stock of the investment universe, homogeneous to a (partial) volatility

- Capture each company's overall economic exposure to authoritarian countries de-biased for market and sectors effects.
- Define the authoritarian exposure (AE) of a company as the sum of its exposure to each authoritarian country.

SEEDING PROPOSAL OBJECTIVE AND CHARACTERISTICS

Objective:

Accelerate the development of TOBAM's strategies via the seeding of open-ended structures.

Benefits for the seeder:

Early exposure to innovative strategies at a discounted cost (50%) Participation in the Structure's revenues

Economics:

Seed target: \$100m/Structure Revenue participation: 20% of the Structure's total net fees over 3 years Seeder participation rate = (seeding amount in USD m) / 100 x 20% Conditions to the revenue sharing: Subscription within the first \$100m No redemption in the first 24 months

Indicative fees for non seeders:

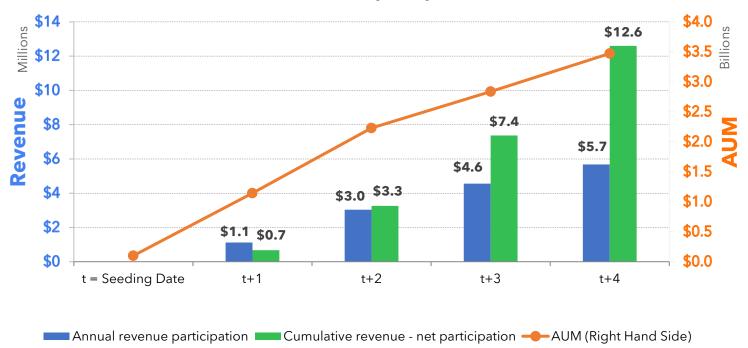

0.50%

EM PERFORMANCE CASE STUDY: PORTFOLIO PERFORMANCE VS PARENT INDEX DURING GEOPOLITICAL EARTHQUAKES

- LBRTY is less exposed to autocratic regimes geopolitical crises .
- Relative performance of TOBAM LBRTY EM vs parent index around 4 material events involving the two biggest autocratic countries over the last few years:

Despite a beta ~ 1, LBRTY portfolio delivered a relative outperformance of ~ 6% around the event.

Major events

EM PERFORMANCE CASE STUDY: HOW INCORPORATING CD IMPACTED PORTFOLIO PERFORMANCE

We look at the ten best months of TOBAM LBRTY EM's excess return versus BBG EM over the last 5 years:

8 of these 10 months have seen a geopolitical event or an increase in geopolitical risk.

Dates	BBG EM	TOBAM LBRTY	TOBAM LBRTY excess return	Events	Geopolitical event
Jun-18	-3.8%	0.3%	4.2%	China-US trade tensions ratcheted up	x
May-19	-6.6%	-3.6%	3.0%	The US raised tariffs on US\$200 billion worth of Chinese imports to 25%, from 10%	x
Mar-21	-2.2%	4.2%	6.4%	China underperformed	
Jul-21	-6.1%	-0.2%	5.9%	Crackdown by Chinese authorities on education technology companies	x
Nov-21	-3.1%	0.1%	3.2%	fears over the new "Omicron" variant of Covid-19 weighing on sentiment	x
Mar-22	-3.4%	4.5%	8.0%	Russia invades Ukraine	x
Jul-22	-0.2%	4.2%	4.4%	China was the worst index performer (bad economic release)	x
Sep-22	-10.6%	-6.8%	3. 8%	China underperformed	
Oct-22	-3.4%	0.5%	3.9%	The election of Xi Jinping for his third term	x
Feb-23	-5.9%	-2.7%	3.2%	A re-escalation in US-China tensions weighed on sentiment	x

TOBAM's strategy has mitigated the risk of drawdown vs the benchmark.

TOBAM'S COMMITMENT TO HUMAN RIGHTS

Achievements

Since starting this initiative over 10 years ago, TOBAM has donated over 2 million EUR to NGOs and about 3.5 million EUR to sustainability and non-profits' expenses.

H U M A N R I G H T S W A T C H

AMNEST

First project funded was with Amnesty International.

TOBAM has sponsored "Human Rights Watch" since 2014 and is one of the largest corporate donator in France. TOBAM's initiative with Human Rights Watch has helped finance a mission in Ukraine, covering a wide range of issues: use of explosive weapons, landmines, monitoring of the humanitarian situation, illegal detentions and torture, freedom of speech, disappearances in Crimea.

Also, TOBAM believes in the freedom of expression & information as a fundamental right and takes pride in associating itself with Reporters without Borders (RSF). Based in Paris, Reporters Without Borders (RSF) is a leading international non-profit and non-governmental organization that safeguards the right to freedom of information. To fight the issues of impunity related to press reporters, RSF set up a Justice for Journalists Task Force through which it will implement a strategic litigation strategy. TOBAM supported the launch of the project in 2020 with initial funding round.

This solidarity-based mechanism - that directly connects investment and philanthropy - was rewarded in 2014 by Axylia, which awarded the "Profit for Non-Profit Special Award" to TOBAM's Anti-Benchmark Emerging Markets Equity Fund.

NOT ELIGIBLE COUNTRIES 2022

Blacklisted Countries	TOBAM Civil Liberty and Democracy Index
Saudi Arabia	3.11
China	3.45
Bahrain	3.51
Egypt	3.88
Qatar	3.89

In 2022, 10 countries would have been studied by our governance committee:

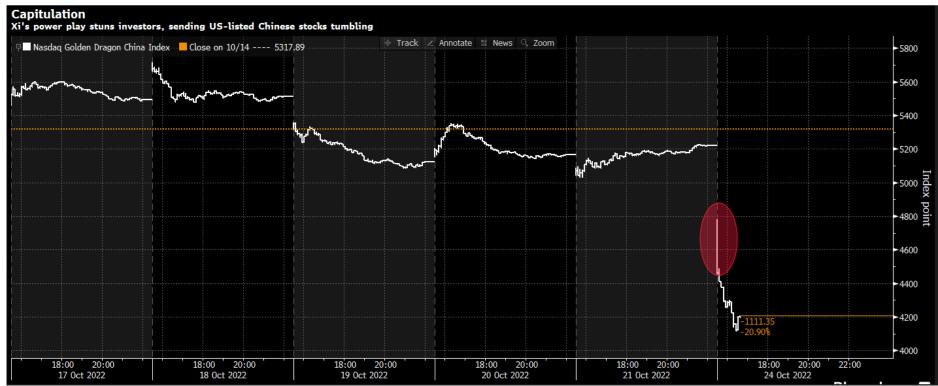

• 3 would have been a priori blacklisted*

• 9 a priori eligible for our investment universe but under the approval of the governance committee.

ILLUSTRATION ON FINANCIAL MARKETS: CHINA Oct. 2022

- The Chinese Tech crack down had already highlighted, how risky it can be for entrepreneurs and investors to be exposed to authoritarian regimes.
- With the confirmation of the third term for Xi, his "common prosperity" rhetoric and zero Covid policy, represent clearly a major risk to investors, which is also visible in direct market reaction, wiping out significant amounts of market values in just a few hours.
- To a lesser extent, on opening of the 24th November ,the US-listed Chinese stocks dropped by almost 13% to a new 13-year low.
- During the Chinese Communist Party, reporters captured video of former Chinese President Hu Jintao getting escorted out of the closing ceremony.

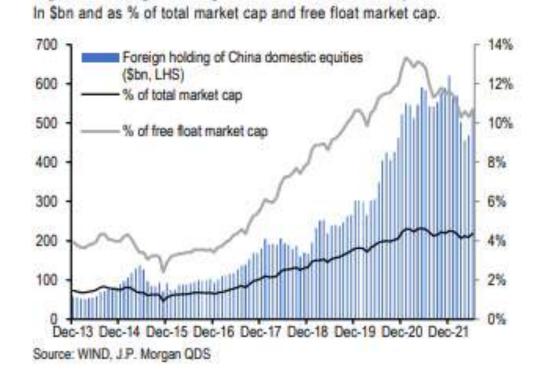

Source: TOBAM, Bloomberg

ILLUSTRATION ON FINANCIAL MARKETS: THE CASE OF CHINA (2)

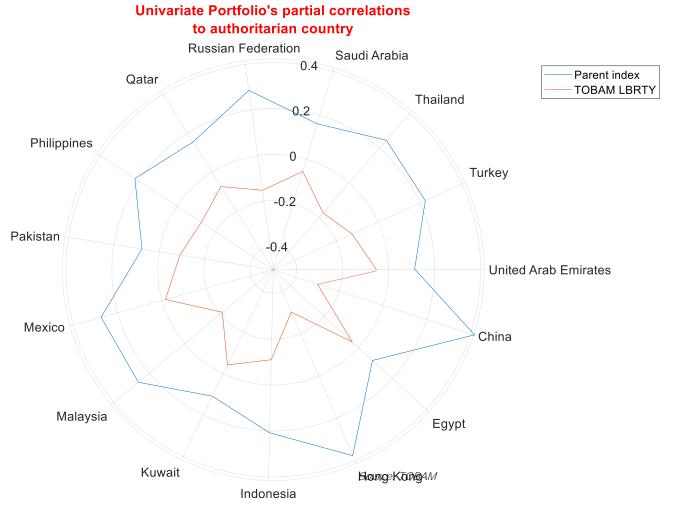

- According to WIND and JP Morgan QDS data, foreign investors held \$530bn of Chinese onshore equities in mid-2022, and around \$540bn of Chinese onshore bonds as of Q2.
- Adjusted for market effects and outflows since the end of June, these holdings fall to \$370bn, if one takes into account the price changes since the end of June. This corresponds to roughly 11% of the free-float market cap of the Chinese stock market.
- These stock estimates can serve as proxy of the potential selling that could happen in the extreme scenario where, similar to the Russian case, foreign investors decide or are forced to exit their Chinese portfolio investments.

Figure 2: Foreign holdings of Chinese domestic equities

ABOUT TOBAM

TOBAM is an asset management company offering innovative investment capabilities designed to increase diversification. Its mission is to provide rational and professional solutions to long term investors in the context of efficient markets.

The Maximum Diversification[®] approach, TOBAM's flagship investment process founded in 2006, is supported by original, patented research and a mathematical definition of diversification and provides clients with diversified core exposure, in both the equity and fixed income markets.

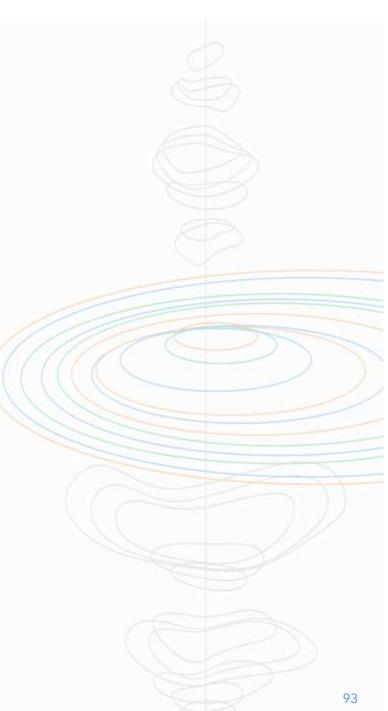

In line with its mission statement and commitment to diversification, TOBAM also launched a separate activity on cryptocurrencies in 2017.

TOBAM manages approx. US\$6 billion (at December 30, 2022). TOBAM's team is composed of 47 professionals.
